Training & Placements

Placements @ 2018-19

Mr. Pankaj Tiwari
Training & Placement Officer
B.Sc., M.B.A.,
16 Years Teaching /
6 Years Corporate Exp.

Er. Sumit Nema
Training & Placement Officer
M.Tech (ICS)
16 Years Teaching Experience

Mr. Harpreet Singh
Training & Placement Officer
BCA, M.A. (Eng. Lit.) M.B.A.
15 Years Teaching Experience

The training & Placement Cell of Global Institute of Engineering & Management poises to create the most effective base for the purpose as has been the case since inception. The Training as such constitutes the basic component of the cell which has the onus of making the students employable with an aim to develop them 360 degree by taking the inputs from industries on latest demands. This part takes care of the overall skill and behavior centric development of the students. To name some major efforts which have been taken up on the account of placement, the first exercise starts with invoking of the training need analysis (TNA) and preparing corporate dossier for establishing the selection parameters and understanding the criteria of recruiters. The placement cell of the institute contacts, proposes, lives up and receives the companies on the specific dates for conduct of the drive. Our placement cell, as against the general trend, has been successfully instrumental in bringing Core Mechanical, Civil & Electronics Companies for the recruitment of the students. The placement drives so far have testimony to the fact that despite the economic slump we have been able to call the companies for all Engineering branches including MBA to come and recruit the students on a decent compensation. The placement team of Global is an assortment of trained talented professionals boasting of serious industrial and academic credentials in different vertices of business. The Team members bring with them the know-how, loads of experience, expertise and flexibility to hand holds the students & recruiters both.

The year 2018-19 saw 22 Companies offering On Campus opportunities to our Students for placements till 6th April 2019 for different branches of B.Tech. & MBA. The process of Campus recruitments is still going on...

Sr.	Company Name	Campus Date	Eligible Branches
1	ZENSAR TECHNOLOGIES	7 Sep. 2018	CS/IT

Sujay Saha
CS, 2018 Batch

I feel extremely delighted to express my happiness of sharing my views with you all that I got placed in Zensar Technologies. I would like to thank my institution Global Nature Care Sangathan's Group of Institutions for serving such innovative and interesting ideas of learning technologies with such an ease. Really friends we are very lucky that we are studying in Global The Best. The Training and Placement cell provide us with the best training to develop my personality skills and that benefited me in the campus drive.

Parneet Kaur
IT, 2018 Batch

I want to share my success with you all, it was like a dream come true. I got offers from three companies. I am extremely happy about my success. I have really worked hard in these 4 years and finally got the fruit of my hard work. I dedicate all my success to my parents. My biggest support is my parents and my faculty members of college. I want to give especial thanks to T&P cell which has provided training and perfect launching pad.

Akhil Awasthi
EC, 2018 Batch

In academics, GLOBAL has proved to be one of the best colleges. A separate T&P cell is provided from starting of the college to prepare the students for placements and competitive examinations. The placement department is very dedicated for students. They have tried to place every student according to their eligibility.

Saksham Sijaria
IT, 2018 Batch

These 4 years were nothing less than a life experience. The college's placement team has always worked in a forward direction to make us professionally advanced. Several training sessions and workshops organized by our college have played the role of stepping stones. Constant guidance and support has been offered by our faculties at every step of the way.

Vishal Kapoor
EC, 2018 Batch

I have been placed in Hexaware. For that I am whole heartedly thankful to the College as well as the entire staff. They always encouraged me to enrich my every single goal of life.

Pooja Vishwakarma
IT, 2018 Batch

I started my academic journey at GLOBAL in the year 2014 and aspiring to become a skilled engineer, I can safely say that most of my expectations were met by my College. Today I am selected in a well reputed company RAVE. I would like to thank GLOBAL for laying a solid academic foundation along with training exposure and pre-placement talks, which has developed me as an all-rounder.

Mayank Tiwari
IT, 2018 Batch

At GLOBAL, we don't get just degree but we also acquire skills and practical knowledge. To help students in placements we were given training and many workshops. I am placed in "e-Zest" by constant efforts of placement department.

Sameeksha Koshta
IT, 2018 Batch

The 4 years of our college life in GLOBAL was awesome. I got placed at Mind Tree through campus recruitment in which placement department and my department was very helpful and friendly. Like every year, placements were too good and this is all because of support and hard work of GLOBALfamily.

Vaishnavi Tiwari
IT, 2018 Batch

GLOBAL, as its tag line suggest The Best, and it gives the best to its students. Value, skills, discipline and co-curricular activity, combination of all these things are taught here. College teaches the education in best possible way. The overall development of the student happens, that helps in the placements. Placement Cell works very hard for bringing MNC to the campus. So thank you for all these people is a very short word, it's something more than that.

Palash Sarawgi
ME, 2018 Batch

A Student after completing the school enters the college with high hopes to make his/her dream realistic and successful. College plays a vital role by acting as an inter-link to turn student's academic life into professional life. I proudly say that all my competitions were met by my college. The T&P Cell of College arranges Trainings that enhances employability-skills. The College conducts campus-drives thus, providing marvellous opportunities to enter into professional life.

Pragya Kurele
IT, 2018 Batch

I really enjoyed my learning years of engineering. Quality of education provided here is very good and placements activities are taken care well. I am very happy to be a student of this college.

Sarang Sapre
EC, 2018 Batch

I am Sarang Sapre. I would love to share my experience at GLOBAL. All of that helps for gaining better knowledge. I am thankful to the college for providing such great facilities and the Training and Placement department for their great support and help.

Shreshthi Shivhare
MBA, 2018 Batch

The nascent stage is always crucial for all the beginners. Starting from the faculties from all the departments including T&P Cell they make us feel safety in numbers. "Placement department is doing tremendous work. I am happy that I am placed in ASHIANA HOUSING.

Apurva Rai
EC, 2018 Batch

I have been placed in Hinduja Group. I consider myself fortunate to be a part of Global College. I am highly indebted to my college for their kind co-operation and encouragement.

Ayush Tamrakar
MBA, 2018 Batch

The journey of 2 years of studying Management at GLOBAL has become the most integral part of my life. We got something very important as a take away: placements. Placements at our college has always been differentiating factor for the institute. I got to learn a lot from the training programs.

More...

Civil Engineering

Civil Engineering is inarguably the oldest engineering profession in the world. What culminated out of mankind's basic need for shelter has stretched its scope well beyond its original purpose. Structures ranging from enormous dams and stupendous bridges spanning across the wildest of the earth's rivers to the multi-storeyed skyscrapes kissing the firmament, bear testimony to the fact. With today's changing scenario, the basic challenges to our society that require civil engineering talent are increasing in number and importance.

Mechanical Engineering

Mechanical engineering is known as "EVER GREEN" branch of engineering. The engineering profession has been greatly enhanced by the design, manufacturing, operation and maintenance of all kinds of machineries. Mechanical Engineering is related with the design, manufacture, operation & maintenance of all types of machineries like steam engines, internal combustion engines, gas turbines, steam turbines, power plants, agriculture machines, machine tools (like Lathe, Milling, Shaper, Drill, Planer, Welding Sets, CNC machines etc.), refridgerators, air conditioners, coolers, cement plants, steel plants, textile machinery, paper mills and so on.

Information Technology is a general term used to describe technologies that help produce, manipulate, store, communicate, or disseminate information. Information Technology includes all matters concerned with the furtherance of computer science and technology with the design, development, installation and implementation of information systems & applications.

Information Technology

During the last decade there has been a communication revolution and the society is moving rapidly into an information oriented era based on new communication technologies. The course introduces the students to the fundamentals of communication and electronics theory, provides practical and applied skills for inculcating rational, scientific and critical thinking. The highlights of major subjects taught in the field of communication include fundamentals and applications of Digital Communication, Fiber Optics, Satellite Communication, Modern Telecommunication techniques in addition to Computer Aided Communication and Software Skills.

Electronics & Communication Engg.

Computer Science & Engineering

Increasing applications of computers in all areas of human endeavour have resulted in a vibrant industry with constant change in technology. The course broadly covers how computers operate and how to programme them, usage of computers, database and computer networking design, development and maintenance of computer software. We have fully air conditioned computer labs installed with 620 computers loaded with latest version of application & system, connected with Wi-fi network. Internet through broad band and necessary peripherals are also provided to keep the students up-date. In addition we are also having TCS-ION computer center having 1320 computers under a single roof in our campus. All the systems are backed with high power security & safety features.

In difficult economic times, going back to school to build new skills - and make yourself more attractive to future employers - becomes extremely popular, even for people with full-time jobs. MBAs are especially popular since the degree is usually meant to prepare someone for more advanced, leadership roles in business (or even government). A successful candidate can truly gain several benefits in pursuing an MBA degree not only for his personal development but for his professional career as well. For one thing, one can acquire additional knowledge on business and a wide range of relevant aspects. The MBA program and business schools usually teach business strategies and concepts, in theory and in reality. Since an MBA course normally requires training and internship in some companies, a student will surely learn to use his skills in reality and in the daily business operations.
